ALLIES PROBABLY NOW AT THE GATES OF PEKING.

ONDON, August 15.-The allies have almost certainly arrived at Peking, even though rain has been falling. The advices received from the British commander at the front, through Rear Admiral Bruce, give reasonable assurance that the twenty-seven miles between the allied force and Peking would be easily traversed in four days, the Chinese seemingly being unwilling to fight and falling back on the capital.

train bearing the remains of Collis P. Huntington left Racquette Lake at 8:20 this morning and reached Utica at 10:50. Those on board were Mrs. Huntington, Mr. and Mrs. M. A. Huntington, Miss Campbell, Geo. F. Miles, Mr. Huntington's secretary Wm. Du-Huntington's secretary, Wm. Durant, Dr. H. H. Warner, Charles G. Ward, superintendent of the Racquette Lake Railway, and the maid and servants in the Huntington household.

The train .oonsisted of two cars, Oneonta and Oneonta II, a smoker and baggage combined. With the exception of the engine the train was owned by the late Mr. Huntington and was the one in which he journeyed to Racquette Lake on Thursday last.

The train left Utica at 11:10 and will make one stop, which will be at Albany. The arrival in New York will probably be before 5 o'clock. Every courtesy possible ed through the train being accorded a clear track and right of visor of this city and county. way. HUNTINGTON'S MMINENT PERIL OF THE MINISTERS.

TO NEW YORK Chinese Government Trying to Force Them to Leave Peking.

> WASHINGTON, Aug. 15.—A dispatch received yesterday by the State Department from Consul Fowler at Chefoo was so badly mangled in transmission as to be almost indecipherable. The cipher experts of the Department worked on it last night and today.

So far as made out, the dispatch appears to contain a message from Minister Conger transmitted to Chefoo by courier. The gist All Speculation as to of the Conger message contained in the cablegram is that the situation in Peking is more critical and that the Chinese government is endeavoring to force the Ministers to leave the imperial city under Chinese escort before the arrival of the relief column. Beyond this point the dispatch is unintelligible.

LONDON, Aug. 15.—The Chinese Minister in London has informed the British Foreign Office that the foreign legations at Peking were safe on Monday, 'Aug. 13th.

A news agency dispatch from Shanghai says: "An authentic message from Peking dated Aug. 7th says the attacks on the legations have been renewed and that the supplies of food have been stopped. The advance of the allies, it is feared, has excited the fanatics and the rebels are again uncontrollable."

The date of General Chaffee's arrival

cupled with slight opposition on the 9th inst.

The date of General Chaffee's arrival at Matow is uncertain. It is taken at the Navy Department to mean that Matow was occupied on the previous day, the 11th, and that the opposition was slight both on the road and in taking the town.

Matow is about twelve miles by road from Eid Si Wu and the road, as indicated on the War Department map, is of the worst possible character. Matow is not a walled city and no serious opposition was expected here. It is about eleven miles by road from Matow to Ching Chia Wan, which is really the suburb of the walled city of Tung Chow and the key to the gates of Peking. If General Chaffee was at Matow on the Ith, it is quite possible that by today he is either in possession of Tung Chow or engaged with the retreating Chinese army that it was thought might make a stand behind its walls. The War Department is highly gratified at the report of General Chaffee's steady advance, which for a week

men who were alleged to be physically unable to patrol a beat has put an end to the importunities of those who sought "soft snaps" for friends on the force. The appeals and requests of those who thought they had "influence" were so frequent and persistent that some action was absolutely necessary. The Mayor and Chief Hodgkins finally concluded that an investigation to ascertain it there were men on the force unable to perform the duties of a patrolman was the proper thing, and if the allegations were found to be correct they should be retired from the force. Since that conversation there have been no further requests for "easy jobs."

Adopted a Waif.

Mr. and Mrs. Antonio Pereira have adopted Mary Silveria, a year old waif. In their petition to adopt the child they set forth "that Mary Silveria was born August 22, 1899, and is the illegitimate child of Rita Silveria, an unmarried woman."

The mother of the child was in court this morning when the potition was heard by Judge Hail, and consented to the adoption.

REMAINS OF W. R. WHEATON LAID TO REST.

The funeral of the late William Rufus Wheaton, took place from the residence of his parents, Mr. and Mrs. George H. Wheaton, 154 Lake street, this afternoon,

at 2 o'clock.

It had been announced that interment would be private and for that reason, there were only a few intimate gentleman acquaintances of the deceased present, and these were mainly intimate friends of the young man who had passed away.

there were only a few intimate gentleman acquaintances of the deceased present, and these were mainly intimate friends of the young man who had passed away.

The residence, however, was thronged with ladies whose presence evinced a loving sympathy with the mother of the deceased in her bereavement.

The remains lay in a massive casket in the parlor, on the lid of which was a silver shield bearing the name and age and date of death of the deceased. The apartment and the floor beneath and around the casket were filled with floral tributes, generally of the more expensive and loosely-formed order. Only two pieces rested upon the casket. These were sprays of Japan lilles, one of which was sent by Mrs. Edson Adams, the other by George Wheaton, sister and brother, respectively of the deceased.

Among the other pieces and their donors were the following: Bunch of pink lilles, Mrs. Mrs. Dr. Boyes; pink and white lilles, Mrs. W. J. with British troops arrived in Shanghai roadstead Tuesday. The Vicerov protested to Admiral Seymour against the landing of the troops, and according to nidnight, Admiral Seymour wired to his government for instructions as to how he should act. The British residents of Shanghai are indignant, and attribute the Viceroy's action to in-trigues on the part of the French and Russian Consuls.

Official confirmation of the objections to landing troops at Shanghai has been received at the Foreign Office here, but being in the Vosges Mountains, nothing definite can be done from London until instructions are received from Lord Salisbury, to whom the matter has been telegraphed.

HONEST RACING TO BE PROMOTED.

Purchase of Tanforan Park by Prince Poniatowski---Athletic Events.

True horsemen—men who delight in the sport of kings for the sport itself will be pleased to learn that Prince Andre Poniatowski has purchased the Tanforan race course. The deal has been conducted very quietly through a third pauty who has gone about taking up blocks of stock here and there until the Prince has a majority of the shares and now controls the famous racing park. It is rumored that he also has an option on Ingleside Park but this is not yet confirmed.

Among his friends it has been known that Prince Poniatowski has had in view for years an ideal racing association companies.

gleside Park but this is not yet confirmed.

Among his friends it has been known that Prince Poniatowski has had in view for years an ideal racing association composed of men interested in the development of the thoroughbred horse. The Prince is an enthusiast on all manly sponts and his colors have been seen well to the front on many occasions on local tracks. At Burlingame near San Mateo he has one of the noted breeding establishments of the coast. His stables produced some noted performers and he has always taken the keenest delight in their work on the turf.

His idea is that racing should be conducted on perfeculy square and absolutely clean game. He has associated with him several men with the same ideas and their entry into the field may be tho means of settling the racing problem in this locality. Tanforan Park was valued at \$200,000 but the amount paid by the Prince is not known.

weeks.

Ey the loss of its center trio—Cornish, Griesberg, Athearn, and Captain Whipple the line is back nearly where it was at the opening of the '98 season. Behind the line Hall, Kaursburg and Hopper are gone, but Locomotive Smith remains, and with Pringle, Womble and Hill forms the nucleus on which the new eleven is to be built up. A lot of first-class substitutes will help ito fill up the vacancies, Clay, Albertson, Kerfoot, Hansen, Moore, Castiehun and Lipman are all expected back, besides others. Good work is expected of the freshmen players of last year, Mini, North, Cook, Valentine and Dibblee.

A number of events interesting to bay wheelmen will take place between now and October 1st. Riders are training for the busy season ahead, club membership is being augmented and on every hand there is a manifest enthusiasm for the spont. The Olympics are matched against the Reno Club in a relay race, the Bay Citys will try their speed against the Sacramentos and all the clubs are preparing for the Baker & Hamilton road race, which is scheduled to take place on September 16th.

In the suburban counties there is also evidence of a revival of interest. Rival clubs from San Mateo and Redwood City have completed arrangements for a relay race on August 25th. At present Redwood City holds the champlonship. The course will be twenty-five miles over the road from Millbrae to the old town of Mountain View. This course was laid out in 1895 and is said to be still in fair condition. In the meantime both clubs are hard at work.

Close Game of Ball.

A game of baseball was played last Saturday between the Invincibles and the Imperial Cocoas, the fatter meeting defeat by the score of six to eight. The features of the game were the phenomenal plays made by Ward the midger pitcher, and Chiradelli who played a wonderful game on third. The Invincibles would like to hear from any team on the Pacific Coast under fourteen years of age. The line up is as follows: D. Armrod. catcher; W. Ward, pitcher; F. Carrigan, first base; L. Ellis, second base; I. Cooper, short stop; E. Talbot, third base; A. Gross, left field; C. Windom, center field; F. Lightner, right field.

Training for Astoria Regatta. Local interest in the regatta races to be held at Astoria next week is increasing. This is due to the fact that the Alameda barge crew has entered for the several events and has been in training right along. F. W. Ayers and J. Lewis of the Alameda Boat Club will also take part in the skiff races and are practicing regularly. It is generally predicted that the Alameda crew will be the star attraction.

tion.

The Astoria people will pay all transportation expenses, but will not be able to pay the hotel bills of the competitors in the regatta races this year. The present plan calls for twenty-three oarsmen and swimmers and five or six field and track men to make the trip. They will leave San Francisco and Oakland on August 21st and will return on August 28th.

JOINED HANDS WITH GERMANY.

In accepting Count von Waldersee, the German General, as commander-in-chief of our forces in China, President McKinley has seen fit to pay some neat compliments to the Kaiser, and in return is the recipient of a number of diplomatic bouquets from the German Emperor. It is only an the inauguration of another of the many precedents that have been established since Uncle Sam left his own bailiwick and went forth to do battle in other parts of the world.

For the first time American soldiers are to march under the leadership of a general other than their own, though of course the flag of the German Empire will be subordinated to the Stars and Stripes as far as our own regiments are conthat the opening of the approaching century would find American troops participating in a foreign invasion and o see how our soldiers will compare with the trained legions of Europe. There are no troops better prepared for the art system every man in Germany is a soldier, and is reared and prepared warriors the United States will be represented by regiments that in nearly every instance consist of hastily recruited men, new to the trammels of drill and discipline as well as to the work of war. However, we have no fears as to what the outcome will be, for what our men lack in experience they more than make up in courage, and in whatever contests the allied forces are called upon to participate, our representatives can be relied upon to carry off their full share of the laurels

THE IRRIGATION ISSUE.

Vigorous methods have been decided upon by the California Water and Forest Association, and the indications are that at last something tangible will result from all the theor izing and planning of the past few years. In order to convincingly impress upon the people the necessity of inaugurating the long-delayed system of irrigation, it is proposed in that way work up a popular sentiment that will make itself | in a way that will surprise him. felt when the Legislature meets.

It is certainly time to take the bull by the horns. Year in and year out we have been passing resolutions setting forth how badly we need the proposed work; statistics by the yard have been quoted showing how for every dollar expended for irrigation ten will return in the form of increased land values and the bringing into cultivation of thousands of acres of at present unproductive soil; the success and prosperity that have attended similar movements elsewhere have been dilated upon until it appeared that there was no room left for argument-in fact, in a score of ways we have long since satisfied ourselves that no greater benefits could be conferred upon California than would follow in the ernor Roosevelt to explain his connection with the monop-

But we have done nothing. Once in a while a promising movement has attempted to get upon its feet, but a lack of support or wrangling as to methods has invariably floored it, this sort of thing recurring so persistently as to almost make a realization of the project appear hopeless. Now, however, that a fresh start has been effected and upon lines that apparently assure success, it is to be hopd that there will be an end to all bickerings and a general response to the appeal for both moral and practical support. It is painfully evident that if we are going to delay our irrigation project until the Federal Government undertakes the work we are liable to be kept waiting a quarter of a century, so we should settle right down to the proposition of doing something ourselves. Surely there is enough at stake to induce every live citizen to get to work on the matter without further delay. Pledge the members of the Legislature to support what irrigation measures are presented to them and then set about finding which is the best road to travel to the goal

desired.

THE COURTS OF APPEAL

Of the eight Constitutional Amendments to be submitted to the people at the November elections, the most interest will center in the one creating the proposed District Courts of Appeal. The necessity for providing some way of lightening the ever-increasing burdens of the Supreme Court has long been apparent, and in seeking a way out of the difficulty the Bar Association formulated the appellate court system which was endorsed by the Legislature two years ago and now goes to the people.

In brief, the District Court proposition is as follows: The State is divided into three sections, each of which is to form a District Court of Appeal. Three Justices are allotted to each court, which, in addition to possessing an original jurisdiction in matters of habeas corpus, mandamus, prohibition, etc., is the final tribunal in all appeals from the Superior Court, with the exception of certain matters reserved for the Supreme' Court, such as constitutional questions, criminal cases in which judgment is death or imprisonment for life. the validity of charters, and statutory issues. The Justices are each to receive \$6,000 a year and to hold office for twelve years. A clerk, phonographic reporter, bailiff and court reporter are attached to each court, the provisions in this regard being similar to those of the Supreme Bench.

Objections are already being raised to the passage of the amendments, one of the principal grievances being that the The Eastern offices of THE OAKLAND TRIBUNE are sit- district courts will constitute a very expensive part of the uated at 230 to 231 Temple Court. New York City, and at 317 State machinery. While this is very true, the question arises, however, whether it is not worth more to the people of the State to pay the \$75,000 or \$100,000 per annum involved than to have litigation tied up for two or three years as it is at present. Under the present system, no matter how meritorious a claim may be, and regardless of the fact that in the trial court it may have been positively shown that the plaintiff was entitled to the relief sought, the taking of an appeal suspends all action on the judgment for a couple of years, at the end of which time, through perchance some error of law, a new trial is ordered, and the plaintiff, unable to locate his witnesses again after such a long lapse of time, is knocked out of what was clearly a just cause. Even with the relief afforded the Supreme Court by means of Commissioners, it has proved impossible to avoid this sort of thing, and as the wheels of justice are becoming more and more clogged each year by reason of the wide variety of appeals possible under our constitution, unless something is speedily done, it will not be long before conditions such as brought about Dickens' celebrated Jarndyce vs. Jarndyce will be duplicated

A remedy that has been suggested is to institute a system of circuit courts such as exist in England, and after dividing the State into four districts, to apportion a set of appellate justices to each and have them visit every county within their jurisdiction two or three times a year. With this plan it is proposed that the District Attorney remain the prosecuting officer of the court instead of the Attorney-General. who now takes charge of all appeals, and to have the local County Clerk also handle all clerical work, thereby saving the expenses of specially officering the higher tribunal. Whether this method be better than the one outlined by the amendment is well worthy of consideration, and the question should be fought out at once, for it is plain that the time has come when action of some sort must be taken on the

ON A WRONG TACK.

Now that Bryan has set the pace for the Democratic stump speakers by declaring that imperialism must be made the prime issue of the campaign and that expansion is a doctrine contrary to both the letter and spirit of the Constitution, it is plain that he is shaping his course towards a political bog that will engulf him if he attempts to force his way through it. As the standard-bearer of the Democracy it must perforce incident, but it is a remarkably interesting one, for it marks be considered that he is the representative of all that is Democratic, and here it is that the question arises of how is he going to reconcile his present declarations with the established position of his party.

Thomas Jefferson, who is regarded by the Simon-pure Democrats as the greatest apostle of their faith that ever lived, was an ardent expansionist, both in theory and in practice. The Louisiana purchase was made principally cerned. Ten years ago who would have thought it possible through his efforts and counsel, and that he was what we would today call an extremist on such matters is shown by the fact that he did not consider the people of the newlycommanded by a foreign general? But war, like politics, is a acquired territory were qualified to exercise the privilege of great thing to develop the unexpected, and the most fanciful suffrage, he himself being the author of the territorial laws predictions are as likely as not to be realized. The present expressly denying them that right. He declared in answer to occasion, however, will furnish a test that will awaken eager the critics of the time that "the people of our recentlyinterest the world over, for now we will have an opportunity obtained territories have neither the training nor the undertanding that is required to permit of their intelligent use of the ballot." Jefferson even went so far as to deny to the of war than are those of Germany, for under the conscription people of the Louisiana purchase the right to select their parish or county officers, a piece of conservatism never once trained with that object in view. As against these carefully contemplated by McKinley in his treatment of the Philippine and Porto Rico questions.

If, therefore, the Democrats attempt to sollow in the footsteps of Jefferson it will not be long before they find themselves in deep water, for such a path will lead them directly to the incarnation of the very principles Bryan is now decrying. Of all the weapons laid upon the Kansas City platform, imperialism is about the most dangerous to juggle with, and before he gets through Bryan will find that the principal result of his labors has been to cut his own throat. There never was a time in the history of the Nation-or in the history of the world, for that matter-when there was more occasion for a vigorous, positive foreign policy than is demanded from the United States at the present time, and the able manner in which McKinley is responding is shown

Though all forgotten then be I. A moss-grown thing my name, Though every chronicle forget These hostages to fame. by the prestige and honors that are pouring in upon us. It ill becomes an American citizen to attempt, therefore, at this Ill Decomes an American citizen to attempt, therefore, at this time to tie the hands of the Administration or to throw mud the work of the Nation's executive and the work of the work of the Nation's executive and at the work of the Nation's executive, and the people are to hold a series of open-air meetings all over the State and going to impress that fact upon Mr. Bryan next November

POLITICAL METHODS IN ENGLAND,

POLITICAL METHODS IN ENGLAND.

The man who asks questions and insists on their being answered is a familiar presence at all party meetings. One of England's many debts to Scotland is the loan of the expressive word used to describe him. He is known as the heckler. The speaker is not allowed to disregard him. If a statement is disputed, it is the orator's place to make it good. Any member of the audience may rise to his feet and shout out a contradiction whenever he feels like it, and by the custom of English public life the speaker is expected to make some reply on the spot.

A Happy Mother

Prolicking with her baby makes one of the prettiest spectacles ever seen in the home. But nothing is sadder to see than the unhappy mother, weak and nervous, striving in vain to hush the office of her weak and nervous babe. There can be no happiness for either mother or

either mother or child without health. Doctor Pierce's Favorite Prescription "has done wonders" for done wonders" for many a woman, by restoring her health and opening for her the way to happy mother hood. This really wonderful medicine is not a cure-all It is a preparaall. It is a prepara-tion specially de-signed to cure dissigned to cure dis-eases peculiar to women. It dries debilitating drains, heals inflammation and ulceration,

cures female weak. ness, and removes the causes which generally make women nervous and sleepless. There is no alco-nol in "Favorite Prescription" and

it contains no opium, cocaine or other

Mrs. James W. Blacker, of 629 Catherine Street, Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor; I had four miscarriages, but since taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' I have much better health, and now I have a fine healthy baby."

Use Dr. Pierce's Pleasant Pellets with "Favorite Prescription" if the bowels are inactive or irregular.

He is not, of course, bound to, but unless he has forgotten all the impromptus that shrewd men carry about with them for such emergencies, he usually does. Mr. Chamberiain was always a dangerous man to cross in debate, but the personal deeling against him was so bitter for years after his withdrawal from the ranks of the Separatists that many an unhappy man was driven to tilt against his shleid. It was delicious to waten Mr. Chamberiain's handling of the situation. He would pause when the interruption grew serious, and give the heckler a chance to make himself well heard. "Now if you will allow me, I will ask that gentleman to get upon a chair, that we may all have the pleasure of seing him." A dozen anxious hands would holst the objector into unwelcome prominence. "Now, sir," came the clear, passionless voice, "will you kindly speak up? I should be sorry if anyone missed what you have to say." The 'heckler, new quite unnerved, would stammer out something and Mr. Chamberlain, listening with a malicious smile, would quietly readjust his ey glass, and, turning to the audience, fling out a reply—cool, cutting, and decisive.—Sydney Brocks in Harper's Magazine.

WHERE ALL ARE POLITICIANS. WHERE ALL ARE POLITICIANS. It was during the silver and gold campaign in 1896 that an Indiana Congressman came home from a tour of speech-making for Mr. McKinley. He was glad to get home to his vine-clad cottage; giad to get away from the never-ending discussion of the coinage of silver at the ratio of 18 to 1. He wanted to be free from the hated question for a week at least. His five-year old gire, a winsome and intelligent miss, ran to meet him, leaving her playmate at the gate. This playmate was the four-year-old daughter of a Dom-

"Ch. papa," said the Congressman's daughter, clasping his neck. "I have something dreadful to tell you!"

"Why, what is it, my dear," he replied, tenderly patting her head. "You haven't hurr yourself, have you?"

"Oh. no; it's worse than that."

"Your mamma's all right, ain't she?"

"Yes, yes, but this is something awful; I hate to tell you."

I hate to tell you."
"But you must tell me or I shall be frightened. There, there, don't cry; tell me the worst at once."
The little one dried her eyes, and bending to his car, whispered, tragically:

LOS ANGELES, Aug. 14.—Judge Ross in the United States Circuit Court yesterday decided the suit of the Los Angeles Ciry Water Company against the city in favor of the water company.

The suit was commenced by the company to have declared invalid an ordinance establishing the water rates passed by the Council last February. The decision says that the only way the city can be free to cut the rates is by paying or tendering to the company the value of the improvements on the plant, as well as the amount asked for the same. The decision touching this point says:

The defendant city has it in its power to put an end to all of the rights and obligacions arising under the contract, by paying or tendering to the complainant company the value of the improvements made in, about and upon the water works as therein provided for, it can do this at any moment that it is ready to make the payment, after the amount has been agreed upon or has been otherwise determined. Until it does so, or offers to do so, all of the covenants and provisions of the contract continue, including that prohibiting the city from establishing lower rates than those charged at the time of the execution of the contract.

of the Exchange on the alms and objects of the American smith, in taking the gavel, said in part:

"The American people must once for all put away the imperial crown which Mr. McKniley proffers them. A self-governing people cannot acquire and hold power to rule others. The proposal that the people of the United States are, or can be, a source of government, whether good or bad, for a purchased or conquered people wholly ignores the basis of the Republic and does violence to its most cherished ideals. Mr. Walker offered the following resolution, which was unanimously adopted:

"Whereas, The development of the State of California has been largely retarded by defective legislation on the subject of irrigation; and

"Whereas, The California Water and Porest Association has been formed to remedy this state of affairs; therefore be it

"Resolved, By the Merchants' Exchange of Oakland, that we endorse the efforts of the California Water and Forest Association, and urgo the citizens of Oakland to become members of that organization."

C. H. Street, representing Ainslee's Magazine, spoke in behalf of advertising the resources of Oakland in that magazine.

Mr. Gier favored a consideration of the proposition, but thought action in the matter should be deferred a few weeks.

President Sinclair suggested that the proposition be submitted to the Board of Trade for consideration before the Exchange took action. His suggestion was adopted.

Mr. Sinclair said ten German ships would shortly lead in the bay with munitions of war for China. As wharf room was scarce in San Francisco, he thought that energetic action on the part of Oakland quisiness men would result in having the ships loaded on this side of the bay at the Long Wharf.

Mr. Ger invited the members of the Exchange who intended going on the excursion next Sunday to visit his place near Napa.

Charged With Assault.

and Neither Inclined to Yield.

POLICE COURT NOT A COLLECTION AGENCY.

Police Judge Smith refuses to permit his court to be used as a collection agency, and this morning refused to dismiss a case at the request of a complaining witness, who claimed that the

matter had been fully settled.

N. S. Casey and H. J. Tyson, two young men claiming to be opticians, appeared before Police Judge Smith this morning on a charge of petty larceny. It is alleged that the two are "grafters" and have been working Alameda and Oakland for the ostensible sale of eye glasses and spectacles. Detectives Hamerton and Kyte, the arresting officers, say their scheme is to sell as gold a pair of eye glasses that cost probably "two bits." Wherever they found a party wearing a pair of gold glasses they would ask to examine them and in the examination would either make an exchange for a pair from their stock or fail to return them.

In the present case Mrs. Sarah Webb of 1135 East Seventeenth street is the complaining witness, alleging that they took from her a pair of glasses. Yesterday she called on Judge Smith and said she had been fully compensated and desired to dismiss the case. This Judge Smith refused to do. When the case was called this morning Attorney Simpson for the defense moved to dismiss on the grounds of full reparation and compensation, and that the com-plaining witness did not desire to prosecute. Again Judge Smith refused, saying that he would not permit the quest Justice Stetson to try the case.

FIGHTING FOR THE LEGISLATURE

in the Forty-Sixth District.

Interesting Battles to Be Waged When Conventions Meet.

The Republican County Committee in executive session yesterday agreed upon the appointment of delegates to the County Convention. They are divided as fol-

the appointment of delegates to the County Convention. They are divided as follows:

First Supervisorial District, 27 delegates.
There will be 13 from Washington, 13 from Murray and 1 from Altamont.

Second District, 27 delegates.
Third District, 59 delegates. Thirty-four of these will come from the Forty-ninth Assembly District.

The several battles for legislative nominations are growing warmer. In the struggle for the State Senatorship Waste seems to have a decided advantage over Lukens as the fight looks now, still the matter can by no means be regarded as settled. A number of the staunch supporters of Clinton G. Dodge for State Senator held a conference at his office yesterday, and it was decided to make an aggressive fight in his behalf from now on. Dodge has been making a quiet but effective canvass for months past, and in addition to having some of the strongest politicians behind him has succeeded in lining up a host of friends all over the district who are working hard for his success. He is considered a strong candidate, and his unimpeachable and splendid record in the, Legislature is proving of valuable assistance to him. His friends argue that he has been a lifelong Republican and has always voluntarily given his services to the Republican party on the stump and that his experience in the Legislature places him in a position to accomplish more than a new man.

There has developed strong opposition to J. P. Crooks, who thought the had a cinch on the nomination for the Assembly from the Forty-sixth District, and while they wards, and the delegates from that place and Niles are pledged to him, but a majority of the delegates come from the other end of the district, and while they were unpledged, it now appears that they were unpledged, it now appears that they are for Mattos.

Frank Tietz Asks to be Sent to Folsom Penitentiary.

Fears That He Will Commit Murder if He Goes to San Quentin.

Fearing that if he was again incarcerated in San Quentin prison he would become a murderer or fail a victim to his enemies who are now imprisoned there. Frank Tietz begged Judge Greene this morning to send him to Fo.som instead of to the penitentiary on the Marin county shore. His pleadings were of no avail. Tietz was convicted of petty larceny last week, and pleaded guilty to a prior conviction for burglary in the second degree, for which he served a term in San Quentin. He was up for sentence this morning. When asked if he had anything to say in his own behalf, he made the unusual request to be sent to Folsom, the prison that is the terror of the felon. NEW YORK, Aug. 15.—A Tien Tsin dispatch to the Herald dated August stin says:

Great confusion yesterday attended the advance of the allied troops with the exception of the Japanese.

The advance began at 3 o'clock in the morning. Under cover of three batteries of artillery two regiments of Japanese in fantry crossed the open in the darkness and the Chinese at once began a heavy fire upon them.

The plan was that the Japanese should occupy the extreme left, supported by the British and Americans came upon the Eussians across the river.

The Japanese in grane spread from our extreme left to the river. They can be the strength of the Japanese were killed orwounded.

With The Japanese still lending and advancing beyond the village of Peltsau, the other troops were unable to catch up. Four thousand Japanese were in the fight yesterday and nine guns were captured.

In the advance General Fukushima's plan was followed.

Fifteen miles were covered and scouts reported that the Chinese were retreating to the north under tweive flags, about 500 strong. This was probably the rear guard and they might have been cut off and annihilated if the Bengal Lancers had been on hand at the right time.

The roads were faility good and dry.

The will act under a supreme head.

The farm militard in the fail the fail to the coverage of er Li Hung Chang's proposal meets with the warm approval of Americans in China and also with that of the army.

NEW YORK, Aug. 15.—A dispatch to
the Times from Paris says:
Highly Interesting demonstrations of
the properties of bloxide of sodium are
being given before the French Academy
of Sciences. Bloxide of sodium is found
to possess the property of renewing the
oxygen in air that has been breathed and
in absorbing carbonic acid gas given off.
Thus, with an apparatus containing the
sodium, shown by Desgrey and Balthouard at the academy, a diver can remain
under water and walk about without baving the air renewed by the pumping apparatus at present employed.
Moreover, by means of the now apparatus miners will be able to penetrate into the poisonous gases and foul air and
firemen into smoke without fear of asphyxiation. It will also render practicable submarine boats.
Ample proofs of all that is claimed for
it were given at the academy. Two men
put on diving dress from which all air
was excluded and remained inclosed
two
hours. Afterward the same men remained under water in the Seine during half
an hour. The experiments are creating
the greatest interest in scientific circles.

WASHINGTON, Aug. 15.—French farmers are disposed to abandon the cultivation of olive groves, as in recent years the prices obtained for the oil have not been satisfactory, according to Consul Skinner at Marseilles, in a letter to the State Department. Pure olive oil for edible purposes is practically unknown in any important market, according to the Consul and the acreage devoted to olives in France is annually becoming less. This year's crop of olives, it is believed, will be a disappointment, as it was last year, and on the whole the outlook for olives and olive oil in France is not encouraging. Consul Skinner says in conclusion:
"Even in France, the home of the olive, arachid oil, or peanut, is considered for some domestic purposes, and particularly for frying purposes, superior to any other product."

A Lecture on China.

Rev. G. W. Hill, the missionary who has spent mach of his life in Chinese cities that are now the scene of so much trouble, will deliver a complimentary keture on the "Situation in China." tomorrow night in the Pilgrim Congregational Church, Eighth avenue and East Sixteenth street. Mr. Hill has but recently returned from the Orient. His lecture abounds in the narration of thrilling personal experiences, reminiscences and ancedotes. He views the situation both from the standpoint of a missionary and from the point of view of the man of affairs.

VICTOR, Col., Aug. 15.—Arthur Taylor and George Featherstone, each about 9 years of age, are under arrest, here charged with causing the wreck of the Midland Terminal passenger train half a mile east of Independence, and trying to wreck the Florence and Cripple Creek train from Bull Hill in the yards at Independence. In the first instance they turned a switch, sending the passenger engine crashing into some freight cars on the siding. Two passengers were injured. About \$40,000 worth of property was destroyed. They were detected and captured while making the second attempt at train wrecking. Their excuse was that they wanted to see a real big railroad wreck.

The British War Office, which made some efforts to keep the press supplied with early and accurate news in the South African campaign, shows itself turned a switch, sending the passenger very tardily informed about the Chinese operations. Some discontent is excited by the fact that people here have so often to look to Washington telegrams to find out what is happening. It is not understood why, if General Chaffee could communicate to his Government the occupation of Ho Si Wu on Mon-

The German Emperor, addressing several officers on their departure for China.
exhorted them not to rest until the enemy begged for quarter. He was strongly opposed to the partition of the Chinese
empire, which was not to be thought of
for the present. German officers, his majesty sald, must not underrate their opponents, as Admiral Seymour had done
